## Add a Calendar

Google Calendar is an easy, robust and free way to add a calendar of events to your site. You manage your events directly through Google's interface and the changes are automatically added to your calendar.

Start by signing up for a Google Calendar account, if you don't already have one. [You can do that here.](#)

Once you get up and running with the calendar (adding events and what have you), you can add it to your site with these steps.

In the calendar list on the left, click the down-arrow next to the appropriate calendar (you can create more than one) and select the Calendar Settings option.

Go to the Share this Calendar tab and check the box to "Make this calendar public." Be sure to Save this change after you make it.

Calendar Name: Lupine Films

Calendar Owner: "Richard Something" <rsomething@lupinefilms.org>

Organization: Lupine Films

Description:

Location:

Calendar Time Zone: This calendar uses your current time zone: (GMT-08:00) Pacific Time [Set my time zone](#)

**Embed This Calendar**

Embed this calendar in your website or blog by pasting this code into your web page. To embed multiple calendars, click on the Customize Link

[Customize](#)

Paste this code into your website.  
[Customize the color, size, and other options](#)

```
<iframe src="http://www.google.com/calendar/hosted/lupinefilms.org/embed?src=rsomething%40lupinefilms.org&ctz=America/Los_Angeles" style="border: 0" width="800" height="600" frameborder="0" scrolling="no"></iframe>
```

Calendar Address: [XML](#) [iCAL](#) [HTML](#) (Calendar ID: rsomething@lupinefilms.org)

[Learn more](#)  
[Change sharing settings](#)

This is the address for your calendar. No one can use this link unless you have made your calendar public.

Highlight and copy the provided embed code. This is what you'll use to add the calendar to your site. Note that, while you're here, you can also use the "Customize" link above the code to make changes to the look and size of the calendar.

**Embed This Calendar**

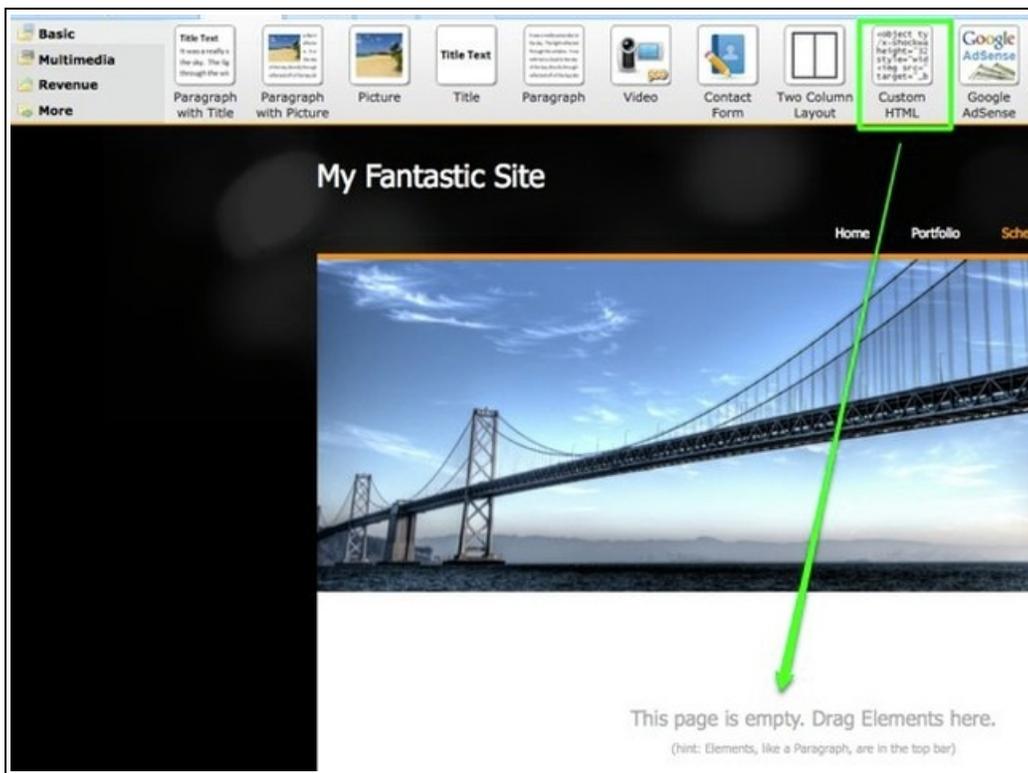

Embed this calendar in your website or blog by pasting this code into your web page. To embed multiple calendars, click on the Customize Link

[Customize](#)

Paste this code into your website.  
[Customize the color, size, and other options](#)

```
<iframe src="http://www.google.com/calendar/hosted/lupinefilms.org/embed?src=rsomething%40lupinefilms.org&ctz=America/Los_Angeles" style="border: 0" width="800" height="600" frameborder="0" scrolling="no"></iframe>
```

Back in our editor, drag the Custom HTML element to a page.

Paste the calendar embed code into the element

```
<iframe src="http://www.google.com/calendar/hosted/lupinefilms.org/embed?src=rsomething%40lupinefilms.org&
amp;ctz=America/Los_Angeles" style="border: 0pt none; frameborder="0" height="600" scrolling="no" width="800">
</iframe>
```

Click out of the element to see your calendar.

Events shown in time zone: Pacific Time Google Calendar

Be sure to Publish to push the Calendar to your live site. Now, any time you add or change an event in Google, this will automatically show up on your calendar.
